***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-5, drawn to grouping gaming machines based on a distance parameter with respect to a reference gaming machine, classified in class 463, subclass 42.
  - II. Claims 6-8, drawn to generating an alert signal if the location of a gaming machine does not comply with gaming regulations, classified in class 463, subclass 40.
  - III. Claims 9-16, drawn to controlling gaming machines that are within a distance from a winning machine, classified in class 463, subclass 42.
  - IV. Claims 17-20, drawn to setting configuration of a gaming machine based on the location of the gaming machine, classified in class 345, subclass 735.
  - V. Claims 21-24, drawn to associating a gaming machine with a linked progressive, classified in class 463, subclass 42.

The inventions are distinct, each from the other because of the following reasons:

2. Invention Groups I-V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Groups I-V have separate utility such as grouping gaming machines, generating an alert signal for alerting violation of a regulation, controlling gaming machines within a distance from a selected machine, setting configuration of

a gaming machine to satisfy a requirement at the location of the gaming machine, and linking a gaming machine to a linked network. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kim Nguyen whose telephone number is (703) 308-7915. The examiner can normally be reached on Monday-Thursday from 8:30AM to 5:00PM ET.
